</tbody>
</table>
The self-audit shall include a summary of new programs being included in the Unified Program.

The self-audit shall include a demonstration that the CUPA has satisfied the specific self-audit and performance standards established in regulation by the Secretary or the state agencies responsible for one or more of the program elements.

The Inspection and Enforcement Program plan shall at a minimum be annually reviewed by the CUPA.

The CUPA shall consult with and reach consensus with the participating agency prior to any changes which affect program elements for which the participating agency is responsible.

The CUPA shall prepare a summary of the annual plan review, pursuant to Section 15280(b)(2). The summary shall discuss effectiveness and efficiency of the Inspection and Enforcement Program activities for the prior year.

To the maximum extent feasible within statutory constraints, the CUPA, in conjunction with participating agencies, shall consolidate, coordinate, and make consistent any local or regional regulations, ordinances, requirements, or guidance documents related to the implementation of the provisions specified in subdivision (c) of Section 25404 or pursuant to any regional or local ordinance or regulation pertaining to hazardous waste or hazardous materials.

The CUPA shall maintain administrative procedures to carry out the requirements of coordinating, consolidating, and making consistent the Unified Program.

The CUPA shall maintain public participation procedures to coordinate, consolidate, and make consistent locally required public hearings related to any Unified Program element.

The CUPA shall maintain public participation procedures which shall, to the extent feasible, include consolidated public notices for activities related to the elements of the Unified Program.

The CUPA shall maintain procedures for records maintenance which shall include the following:

1. Identification of the records maintained.
1023 (2) Minimum retention times.

CCR T27 §15180(a)(2)(A)(ii)

1024 (3) Archive procedures.

CCR T27 §15180(a)(2)(A)(iii)

1025 (4) proper record disposal methods.

CCR T27 §15180(a)(2)(A)(iv)

1026 Responsible agencies shall maintain procedures to respond to requests from the public, from government agencies with a legal right to access the information, or from emergency responders. This standard is similar in its requirements to # 2078

CCR T27 §15180(a)(2)(B)

1030 Hazardous Material Release Response Plans and Inventory information shall be sent by the responsible agency to other local agencies with shared responsibilities for protection of public health and safety and the environment within 15 days of receipt and confirmation in accordance with Health and Safety Code Section 25509.2 (a)(2) and (3). This standard is similar in its requirements to # 1207, 2124, & 3006

CCR T27 15180(a)(2)(D)

1033 The CUPA shall maintain a Financial Management System which shall include a single fee system and a mechanism for fee accountability in compliance with T27 §15210(b). This standard is similar in its requirements to # 1140 & 1156

CCR T27 §15180(a)(3)

1034 The CUPA shall maintain a dispute resolution process, designed to resolve problems arising between the participating agencies and the CUPA. This standard is similar in its requirements to # 1153

CCR T27 §15180(a)(4)

1035 The CUPA shall maintain procedures which allow for appeal of a dispute resolution pursuant to paragraph T27 §15180(a)(4).

CCR T27 §15180(a)(5)

1036 The CUPA shall ensure that the Unified Program includes a mechanism to receive and consider comments related to Unified Program performance from regulated businesses and the public on a regular basis.

CCR T27 §15180(a)(6)

1037 The CUPA shall conduct meetings, to coordinate and to maintain consistency within the Unified Program, at least four times annually or as specified in the implementation plan pursuant to Section 15150(e)(6). Representatives of the CUPA and all PAs within the CUPA's jurisdiction will attend.

CCR T27 §15180(a)(7)

1038 The governing body of the CUPA shall enter into written agreements with the governing bodies of all participating agencies to implement specific element(s) of the Unified Program. The written agreement shall include:

CCR T27 §15180(a)(8)(A)

1039 (1) Procedures for withdrawal or revocation of participating agencies

CCR T27 §15180(a)(8)(B)

re-create the detailed information for each summary report required by Section 15290.

**Permitting**

1057 The CUPA shall develop and implement a procedure for issuing, to a business, a unified program facility permit which would replace any permit required by Section 25284 and any permit or authorization required under any local ordinance or regulation relating to the generation or handling of hazardous waste or hazardous materials, but which would not replace a permit issued pursuant to a local ordinance which incorporates provisions of the Uniform Fire Code and Uniform Building Code.

1059 The unified program agencies shall enforce the elements of a unified program facility permit in the same manner as the permits replaced by the unified program facility permit would be enforced.

1060 The CUPA shall maintain a Consolidated Permit Program which shall be implemented in conjunction with its participating agencies according to a Consolidated Permit Program Plan.

1061 The CUPA shall maintain consolidated permits issued under the Unified Program utilizing the Unified Program Facility Permit.

1062 The program shall provide for a coordinated and consolidated permit process which provides regulated business a single point of local contact for obtaining information on, the requirements for, and the application process for the Unified Program consolidated permit.

1063 The CUPA shall maintain a single point of contact including a single point for referrals to appropriate participating agencies, if applicable.

1064 The CUPA shall provide a consolidated permit application package for the regulated business' specific requirements.

1065 The consolidated permit application package shall be presented as a single form, designed to transmit multi-program information, or as multiple forms arranged into a single package.

1066 The consolidated permit application package shall not duplicate information, unless it is necessary to provide for form tracking.

1067 The CUPA shall utilize the applicable sections of the Unified Program Consolidated Form to collect the required information for a permit application. *This standard is similar in its requirements to # 5000, 7006, &7015*

1068 The CUPA shall establish a system to define which program elements require permits for activities of each regulated business.

1072 The CUPA, in cooperation with the participating agencies, shall have a system to ensure timely decisions regarding consolidated permits under the Consolidated Permit Program which shall include:

1074 (1) A preliminary check for application completeness.
(2) A technical review of permit applications by the responsible agency.

(3) A procedure for tracking permit applications, establishing follow-up protocol, and facilitating expeditious processing, when necessary.

The CUPA shall maintain efficient methods of transmitting the permit, and include them in the Consolidated Permit Program plan.

The CUPA shall maintain mechanism to evaluate the coordination, consolidation and consistency of the permit process.

Information obtained through the permit evaluation process shall be considered and used in modifying the Consolidated Permit Program when appropriate.

The Consolidated Permit Program Plan shall include:

- A list of all types of permits and authorizations that will be consolidated within the unified program.
- Flow chart describing the Unified Program’s procedures, including timelines and time limits of appeal processes.
- Addenda which will be used to document permit conditions for each applicable element of the Unified Program.
- The consolidated permit cycle established for the CUPA.
- A description of the procedure and process that the CUPA shall use to address any coordination, consolidation, or consistency issues not specifically addressed above.
- A description or sample of the cover sheet of the Consolidated Permit.

The cover sheet of the Consolidated Permit shall:

- Include a list the program element permits which make up the Consolidated Permit and the agency responsible for issuing those permits.
- Identify each program element's permit status (temporary, provisional, or permitted).
- Identify the permitted facility by business name and address.
- Specify the permit issuance date.
Specify the effective term of the permit.

The CUPA shall distribute copies of the UPCF to any regulated business or member of the public upon request. A CUPA may add the name of the CUPA, a logo, and address, phone number, and other identifying information to the UPCF title or footer on one or more pages, without the customized UPCF being considered an alternative version subject to the conditions adopted by this section.

The CUPA shall accept the UPCF as shown in Appendix E from any regulated business that chooses to use it, even if the CUPA adopts one or more alternative versions of the UPCF.

A CUPA may create alternative versions of the UPCF for local purposes such as streamlining for small businesses or addressing a specific type of industry. Any alternative version of the UPCF shall:

1. Collect all of the information found on the UPCF that applies to the regulated businesses using the data element definitions established by the data dictionary.

2. Be consistent with the data standards adopted throughout Article 5 through 10 of these regulations.

3. Use the same section order as shown in Section 15400.1.

4. Be developed in consultation with all other agencies within the CUPA’s jurisdiction that are responsible for fire protection, emergency response, and environmental health.

5. Not duplicate data elements between sections of the UPCF other than facility ID number and facility name.

6. Comply with all applicable federal and state laws.

7. Include this written disclaimer statement on a cover page or the front page, printed using a font larger than or equal to 8 points for readability: This form was developed by the CUPA as an alternative version of the Unified Program Consolidated Form (UPCF). Businesses have the option to use it or the UPCF adopted in state regulations. The CUPA or Participating Agency (PA) must accept the state UPCF and cannot require a business to use the alternative version developed by the CUPA. The CUPA and PA can require businesses to provide additional information on either the UPCF or a supplemental page to that document.

Each CUPA shall provide instructions to the regulated businesses when distributing the UPCF and any alternative versions. These instructions must be consistent with the instructions adopted in California Code of Regulations.
1104 The CUPA shall collect additional local information on either supplemental pages or within the UPCF in the boxes provided on the Business Owner/Operator Identification page (OES Form 2730) and the Hazardous Materials Inventory-Chemical Description page (OES Form 2731).

1106 The CUPA is prohibited from requesting duplicative information in a different format if that information is part of the Data Dictionary, the UPCF, or the alternative version of the UPCF.

1111 The CUPA shall determine if business generated facsimiles comply with the requirements. This includes facsimiles of their alternative versions of the UPCF.

1112 To the extent not prohibited by law, the CUPA may assist businesses to revise their information by providing copies of completed reports based on previous submittals. These reports shall be in the general format of the UPCF or the alternative version.

**Inspection**

1113 The CUPA, in conjunction with participating agencies, shall develop and implement a single, unified inspection and enforcement program to ensure coordinated, efficient, and effective enforcement of the provisions specified in subdivision (c) of Section 25404, and any local ordinance or regulation pertaining to the handling of hazardous waste or hazardous materials.

1114 The Unified Program shall include a single Unified Inspection and Enforcement Program which shall be implemented according to the Inspection and Enforcement Program Plan.

The following types of inspections shall be conducted within the Unified Program and shall be conducted according to the standards contained in statute and regulation:

1116 (1) Hazardous waste generator inspections [refer to Sections 25150, 25159, Health and Safety Code; Chapter 12, Division 4.5, Title 22 of the California Code of Regulations]. *This standard is similar in its requirements to # 7020*

1117 (2) Inspection of onsite hazardous waste treatment activities under the conditionally exempt, conditionally authorized, and permit by rule tiers of Tiered Permitting [refer to Sections 25200.3, 25201.5, Health and Safety Code; Chapter 45, Division 4.5, Title 22 of the California Code of Regulations]. *This standard is similar in its requirements to # 7020*

1118 (3) Underground Storage Tank Program inspections [refer to Section 25288, Health and Safety Code; Section 2712 et seq., Chapter 16, Division 3, Title 23 of the California Code of Regulations]. *This standard is similar in its requirements to # 5017*

1119 (4) Business Plan Program inspections [refer to Section 25500 et seq., Health and Safety Code]. *This standard is similar in its requirements to # 2087*
Standard Description

(5) Risk Management and Prevention Program inspections [refer to Section 25533 et seq., Health and Safety Code]. *This standard is similar in its requirements to # 4051*

1120 The CUPA, in conjunction with participating agencies, shall coordinate, to the maximum extent feasible, the single, unified inspection and enforcement program with the inspection and enforcement program of other federal, state, regional, and local agencies which affect facilities regulated by the unified program.

1121 The CUPA shall implement a documented Inspection and Enforcement Program Plan which shall be prepared in cooperation with all proposed participating agencies of the jurisdiction and shall contain documented procedures for administering all program elements.

1122 The plan shall include an inspection component. The inspection component shall include:

1123 (1) The number of regulated businesses within each program element and the mandated frequency of inspections for those regulated businesses.

1124 (2) A schedule of the frequency of inspections to be conducted, which shall meet the minimum inspection frequency(s) mandated in statutes.

1125 (3) Inspection frequency, inspection frequency scheduling shall consider the following: local zoning requirements, population density, local ground water conditions, identified hazards of a type of business, quantity and types of hazardous materials, emergency response capability, compliance history and any other pertinent local issues.

1126 (4) Provisions to promote integrated joint, combined, multi-media inspections.

1127 (5) A mechanism to ensure that Unified Program inspector training meets or exceeds requirements currently set forth in statute or regulation.

1128 (6) Methods to cross-train staff.

1129 (7) Coordinate inspection and enforcement efforts between the CUPA and its participating agencies.

1130 The CUPA shall update the plan as necessary in accordance with changes identified in the Self-Audit.

1131 Any report of inspection of underground storage tank system shall be consolidated with other inspection reports required pursuant to Chapter 6.11, the listed requirements in 25404(c), and the regulations adopted to implement section 25404(c) [T27, CCR]

Enforcement
**Standard Description**

1132 The CUPA shall maintain an enforcement component of the Inspection and Enforcement Program Plan in cooperation with all participating agencies.

The enforcement component of the Inspection and Enforcement plan shall include:

1133 (1) A description of responsible agency enforcement notification procedures which ensure appropriate confidentiality as defined by the Public Records Act of the State of California. (Government Code §6250 et. seq)

1134 (2) A description of CUPA enforcement notification procedures which ensure coordination and timely notification between responsible agencies and the appropriate prosecuting agency.

1135 (3) A uniform and coordinated application of enforcement standards.

1136 (4) Penalties and enforcement actions which are consistent and predictable for similar violations and no less stringent than existing state statute and regulations.

1137 (5) A graduated series of enforcement actions which may be taken by the responsible agencies, based on the severity of the violation.

1138 (6) Provisions for county and/or regional meetings of the CUPA with its participating agencies and between the CUPAs in a county-wide or regional area involving multiple CUPAs at least every quarter. The purpose of which is to discuss integrate/multi-media enforcement programs, which include joint and combined inspection and enforcement.

1139 (7) Provisions to encourage integrated joint, combined, and multi-media enforcement whenever possible.

**Single Fee System**

1140 Each CUPA shall implement a Single Fee System which shall replace, within its jurisdiction, all fees mandated in Health and Safety Code, Sections 25205.14 (Tiered Permitting), 25287 (Underground Storage Tanks), 25513 (Business Plans), 25535.2 (Risk Management Prevention Plans) and any other fees levied by a local agency specifically to fund the implementation of the programs specified in Health and Safety Code, Section 25404(c). *This standard is similar in its requirements to # 1033 & 1156*

1143 Fee schedules shall be based on factors associated with the cost of implementing and maintaining programs.

1154 Each participating agency is responsible for establishing fees which reflect the necessary and reasonable costs of implementing the associated program element.

1155 Each participating agency shall notify the CUPA of that fee amount within the time frame as identified in the Unified Program single fee system implementation plan.
1147  The CUPA shall ensure that all funds collected on behalf of the participating agency are forwarded to the participating agency.  

1148  The CUPA shall pay the participating agency within 45 days of receiving fees designated for the participating agency unless the participating agency and CUPA agree in writing to an alternate schedule. 

1149  Each billing statement shall itemize the fees by program element, if those fee elements are calculated separately. 

1151  The governing body of the CUPA shall establish the fee schedule for businesses regulated under the Unified Program.  The governing body of the CUPA shall utilize the fee schedules established by the participating agencies and authorize the collection of those fees. 

1152  The CUPA or participating agency shall make fee schedules available to interested parties upon request. 

1153  The CUPA shall develop and implement a mechanism to resolve fee disputes which arise between the CUPA and participating agencies, between a regulated business and either the responsible agency or the CUPA, or between a regulated business and the state regarding the state surcharge.  This standard is similar in its requirements to # 1034 

1156  Each CUPA shall implement a fee accountability program designed to encourage more efficient and cost-effective operation of the program for which the single fee and surcharge are assessed.  This standard is similar in its requirements to # 1033 & 1140 

1157  The fee accountability program shall be instituted before the single fee system. 

1159  (1) A procedure of accounting for: the fee schedule, the actual amount billed, and the revenue collected. 

1160  (2) Discrete billable services, categorized as either site specific or general. 

1161  (3) Staff work hours required to implement the program. 

1162  (4) Direct program expenses including durable and disposable equipment. 

1163  (5) Indirect program expenses including overhead for facilities and administrative functions. 

1164  (6) The number of regulated businesses in each program element within the jurisdiction.
(7) Total number of regulated businesses in the jurisdiction.

CCR T27 §15210(b)(1)(G)

(8) Quantity and range of services provided, including frequency of inspection.

CCR T27 §15210(b)(1)(H)

The CUPA and participating agencies shall annually review and update the fee accountability program. This standard is similar in its requirements to # 1006

CCR T27 §15210(b)(2)

The Single Fee System shall include mechanisms for the billing, collection and transmittal of the state surcharge. CCR T27 §15210(c)

The CUPA shall provide the Secretary with the information necessary for determination of the annual surcharge This standard is similar in its requirements to # 1209

CCR T27 15210(d)

The CUPA shall develop a single fee system implementation plan which

CCR T27 §15220(a)

(1) Provides for a transition from multiple billing statements and collection agencies within the Unified Program, to a single billing statement and collection agency within the Unified Program.

CCR T27 §15220(a)(1)

(2) Provides for public participation and review of the proposed plan.

CCR T27 §15220(a)(2)

(3) Provides for a transition period no longer than 5 years.

CCR T27 §15220(a)(3)

(4) Provide for regulated businesses to receive a single billing statement annually that includes all recurring Unified Program activity fees.

CCR T27 §15220(a)(4)

(5) Provide for regulated businesses to remit Unified Program fees with a single payment.

CCR T27 §15220(a)(5)

(6) Provisions for instances of non-payment.

CCR T27 §15220(a)(6)

The CUPA shall implement procedures to ensure collection of the surcharge. These procedures should address at a minimum, the suspension of permits for non-payment or late payment.

CCR T27 §15250(a)(1)

The CUPA or other Responsible Agency shall retain surcharge billing and collection records for five (5) years following closure of any billing period or until completion of any audit in process, whichever is longer.

CCR T27 §15250(a)(5)

The CUPA shall provide access to surcharge billing, collection and transmittal records within 60 days following a request from the Secretary. This standard is similar in its requirements to # 1229

CCR T27 §15250(a)(6)

The CUPA shall begin assessing the surcharge within its first billing cycle or within twelve months after the effective date of certification, whichever is shorter.

CCR T27 §15250(a)(7)
1186 The state surcharge may not be waived for any regulated business so long as the regulated business is assessed a fee under the single fee system. The CUPA may waive the state surcharge for specific regulated businesses provided that the criteria for waiving the state surcharge meets the same standards as those established by the CUPA for waiving the single fee.  

CCR T27 §15250(a)(8)

1187 The CUPA shall transmit all collected state surcharge revenues to the Secretary quarterly, within 30 days of the end of each state fiscal quarter.  

CCR T27 §15250(b)(1)

1197 The CUPA shall attempt to resolve disputes involving the surcharge. Those disputes which cannot be resolved locally may be referred to the Secretary.  

CCR T27 §15250(d)(3)

1198 Disputes referred to the Secretary shall be in writing and shall include a recommendation for resolution.  

CCR T27 §15250(d)(3)(A)

1199 The CUPA shall provide access to surcharge billing, collection and transmittal records upon the Secretary's request.  

CCR T27 §15250(e)

**Reporting**

1204 The CUPA will maintain procedures for acceptance, tracking, and maintenance of Business Plans and CalARP registration forms from regulated businesses. *This standard is similar in its requirements to # 2053*

CCR T27 §15100(f)(4)

1205 The CUPA will maintain procedures for acceptance, tracking, and maintenance of reports of any release or threatened release of a hazardous material which poses the potential for significant hazard.  

*This standard is similar in its requirements to # 2122*

CCR T27 §15100(f)(5)

1206 The CUPA will integrate information from submitted business plans into the development and implementation of an area plan as defined in HSC Chapter 6.95, Article 1.  

*This standard is similar in its requirements to # 2123*

CCR T27 §15100(f)(6)

1207 If the CUPA is not the local fire authority, the CUPA must transmit business plan information to the local fire authority within 15 days of receipt and confirmation.  

*This standard is similar in its requirements to # 1030, 2124 & 3006*  

CCR T27 §15100(g)(3), HSC §25509.2(a)(3)

The CUPA shall submit the following reports for the previous fiscal year to the Secretary by September 30 of each year to the: Secretary for Environmental Protection, c/o DTSC Unified Program Section, P.O. Box 806, Sacramento, CA 95812-0806.:  

*This standard is similar in its requirements to # 1171*  

CCR T27 §15290(a)(1)

CCR T27 §15290(a)(2)

CCR T27 §15290(a)(3)

1218 The CUPA shall submit the Biennial Tiered Permitting Release Report, using Report 5, to the Secretary for the previous two-year period by August 30, every other year starting in 2000.  

CCR T27 §15290(b)
On a quarterly basis, each CUPA shall send information pertaining to local underground storage tank program implementation to the State Water Resources Control Board using Report 6 or other format provided by the SWRCB.

This standard is similar in its requirements to #1222

The quarterly reports shall be submitted 60 days after the end of each quarter to the: State Water Resources Control Board, Division of Clean Water Programs, UST Program, P.O. Box 944212, Sacramento, CA 94244-2120

This standard is similar in its requirements to #1220

If the CUPA believes that the number of regulated businesses will change significantly in the current year or in the next year, then estimates of those changes for each program element will be provided in a cover letter with Report 2.

This standard is similar in its requirements to #1221

Reports 1-6 shall be submitted in a paper form, unless the CUPA requests to submit the reports electronically and obtains the Secretary's prior approval of the file format.

Upon approval from the Secretary to submit Reports 3-6 electronically, the CUPA shall:

1. Submit all information in a format and structure (field length and type in the order specified) as defined in the Data Dictionary.

2. Submit the data using the same order and general sequencing for each page as shown on each report, or use a facsimile version thereof.

3. Collect and report all of the information found on the report that applies to the CUPA.

Upon the written request of the Secretary or a state agency responsible for one or more program elements, the CUPA shall provide information listed in or derived from any part of the Unified Program Data Dictionary [refer to Appendices C and D] to the person or agency making the request within 60 days in a paper form, unless the person or agency making the request approves a CUPA’s request to submit the reports electronically. CUPAs may request an extension upon showing good cause.

This standard is similar in its requirements to #1229

The CUPA shall provide within 60 days notice to the Secretary records or documents that are normally maintained by the CUPA in the course of implementing the Unified Program or otherwise required by law to be retained by the CUPA. This standard is similar in its requirements to #1228, 1184, 1029, & 1003

The CUPA shall provide any other program reports required by federal or state law to the person or agency making the request within 60 days.

In 1998-99, CUPAs may submit incomplete Reports 3 and 4, if information on CUPA activities had not been collected using these categories for that entire reporting period. In those cases, the CUPA shall submit additional available information demonstrating inspection and enforcement activities for the 1998-99 fiscal year.
Ongoing Training

The CUPA and/or a participating agency are required to meet the standards in effect at the time of application for those program elements.

CUPA technical program staff and supervisors must meet the following minimum educational requirements:

Thirty (30) semester units earned from an accredited college or institution approved by the California Superintendent of Public Instruction under the provisions of California Education Code Section 94310(b), from one or more of the following disciplines:

1. biology or microbiology
2. chemistry, chemical engineering
3. physics, physical science
4. environmental science
5. geology or soil science
6. environmental health
7. environmental or sanitary engineering
8. toxicology
9. industrial hygiene
10. hazardous materials management
11. fire science, fire technology

Equivalent to graduation from an accredited college or university or equivalent degree approved by the California Superintendent of Public Instruction under the provisions of California Education Code Section 94301(b) with major course work in the disciplines listed above;

Qualifying experience in hazardous materials management, regulation, analysis, or research; environmental research, monitoring, surveillance or enforcement; or resource recovery may be substituted for the required education, on the basis of one year of qualifying experience for 15 units of college course work listed above, for up to a maximum of 15 units.

CUPA technical program staff and supervisors who are involved in implementing the Hazardous Waste Generator/Onsite Treatment Program shall have 100 hours of training covering all the following subject areas:

1. Regulatory overview;
2. Classification, identification, and chemistry of hazardous materials and hazardous waste;
3. Health and environmental effects of hazardous substances, including chemical exposure and route of entry;
4. Sampling methodologies and use of instrumentation for detection and sampling of hazardous substances;
5. Conducting inspections and enforcement actions, and writing inspection reports and notice of violation;
6. Interviewing, case development, and collection and preservation of evidence.
One or more CUPA technical staff or supervisors, as needed to effectively meet the requirements of T27 §15260(a)(3)(A) and T27 §15260(a)(3)(B), shall meet the following requirements:

1. Regulatory overview;
2. Classification, identification, and chemistry of hazardous materials and hazardous waste;
3. Health and environmental effects of hazardous substances, including chemical exposure and route of entry;
4. Sampling methodologies and use of instrumentation for detection and sampling of hazardous substances;
5. Conducting inspections and enforcement actions, and writing inspection reports and notice of violation;
6. Interviewing, case development, and collection and preservation of evidence.

The applicant agency shall identify the specific types of ongoing training which technical staff and supervisors are required to receive. At a minimum, technical staff and supervisors of the CUPA and participating agencies shall receive training in the following areas:

1. Hazardous materials and hazardous waste permitting, inspection and enforcement duties and responsibilities pursuant to state law and regulation, and to local ordinances and resolutions.
2. Inspection techniques and scheduling, including evidence collection, chain of custody, sample preservation, and interviewing.
3. Administration practices within a hazardous materials and hazardous waste program.
4. Monitoring equipment, data evaluation, and interpretation of the results as related to hazardous materials and hazardous waste analysis.
5. Field staff health and safety training including: planning field inspections, safety equipment, on-site procedures, decontamination and hazard recognition and avoidance.

The CUPA shall demonstrate that its staff meet the following education requirements:

Equivalent to graduation from an accredited college or university or equivalent degree approved by the California Superintendent of Public Instruction under the provisions of California Education Code section 94310(b) with major course work in:

1. Biological science
2. Chemical science
3. Physical science
4. Environmental science
5. Soil science
6. Environmental health
7. Environmental or sanitary engineering
8. Toxicology
9. Industrial hygiene

Additional qualifying experience in hazardous materials management, regulation, analysis, or research; environmental research, monitoring, surveillance or enforcement; or resource recovery may be substituted for the required education.
**Standard Description**

on the basis of one year of qualifying experience for each year of college work for up to a maximum of two years. When substituting experience for education, qualifying education must include a minimum of 30 semester units in natural science from an accredited college or equivalent units from an institution approved as above

-OR-

Registration as an Environmental Health Specialist.

---

1268 Participating staff shall have a minimum of one year experience in conducting hazardous materials or hazardous waste regulatory inspections. 

CCR T27 §15260(d)(2)

1289 It shall be the responsibility of the CUPA to document the training and experience of staff participating in this program.

CCR T27 §15260(d)(3)(D)

1028 The responsible agency shall make training records available to the CUPA upon request.

CCR T27 §15180(a)(2)(C)(ii)

1029 The CUPA shall provide training records or access to training records to the Secretary within 30 days of request. This standard is similar in its requirements to # 1229

CCR T27 §15180(a)(2)(C)(iii)

</table>
(i) provisions for notification to the Office of Emergency Services of all reports received pursuant to Article 2 of this subchapter. These notifications shall be submitted, at least monthly, on forms specified by the Office of Emergency Services.

(j) provisions for documenting personnel training described in T19 §2725(a) Compendium lines 2017-2026; and

(k) provisions for joint field or table-top exercises, with affected organizations, with voluntary participation of business representatives.

(l) site perimeter security procedures for use during a release or threatened release of hazardous material;

(m) provisions for informing business personnel and the affected public of safety procedures to follow during a release or threatened release of a hazardous material;

(n) designation of responsibility for the coordinated release of safety information to the public and to the local Emergency Broadcast System;

(o) provisions for informing medical and health facilities of the nature of the incident and the substance(s) involved in an incident; and

(p) provisions for evacuation plans.

Evacuation planning included in the Area Plan shall provide for the following elements:

(1) determination of the necessity for evacuation;

(2) centralized coordination of information with local law, fire, public health, medical, and other emergency response agencies;

(3) timely notification of the affected public, including release of messages prepared pursuant to subsections (c) and (d) of this section;

(4) properties of hazardous materials, such as quantity, concentration, vapor pressure, density, and potential health effects;

(5) possible release scenarios;

(6) facility characteristics, topography, meteorology, and demography of potentially affected areas;

(7) ingress and egress routes and alternatives;

(8) location of medical resources trained and equipped for hazardous material response;

(9) mass-care facilities, reception areas, and sheltering; and
At a minimum, area plans shall establish provisions for training of emergency response personnel in the following areas:

- (1) emergency procedures for first response to a release or threatened release of hazardous materials;  
  CCR T19 §2725(a)(1)

- (2) health and safety procedures for response personnel, including those procedures required by Section 2724 of this Article;  
  CCR T19 §2725(a)(2)

- (3) use of emergency response equipment and supplies;  
  CCR T19 §2725(a)(3)

- (4) procedures for access to mutual-aid resources;  
  CCR T19 §2725(a)(4)

- (5) identification of medical facilities capable of providing treatment appropriate for hazardous material incidents;  
  CCR T19 §2725(a)(5)

- (6) evacuation plans and procedures;  
  CCR T19 §2725(a)(6)

- (7) monitoring and decontamination procedures for emergency response personnel and equipment;  
  CCR T19 §2725(a)(7)

- (8) first-aid procedures for hazardous material incidents;  
  CCR T19 §2725(a)(8)

- (9) procedures for informing the public during emergencies; and  
  CCR T19 §2725(a)(9)

- (10) psychological stress that may be encountered during disaster operations.  
  CCR T19 §2725(a)(10)

Area plans shall contain a listing and description of available emergency response supplies and equipment specifically designated for the potential emergencies presented by the hazardous materials which are handled within the jurisdiction of the administering agency. This information shall be presented to reflect response capability.

Area plans shall outline the provisions for regular testing, if applicable, and proper maintenance of emergency response equipment under the direct control of the county or city, as the case may be.

Area plans shall describe provisions for the critique and follow-up of major incidents of a release or threatened release of hazardous material. The critique shall include an interagency meeting to evaluate the response, to improve future response, and to determine if any area plan revisions are required.

The administering agency shall certify to the office every three years that it has conducted a complete review of its area plan and has made any necessary revisions.

Any time an administering agency makes any substantial changes to its area plan, it shall forward the changes to the OES office within 14 days after the changes have been made.
An administering agency shall submit to the office, along with its area plan, both of the following:

1. The basic provisions of a plan to conduct onsite inspections of businesses subject to this chapter by either the administering agency or other designated entity. These inspections shall ensure compliance with this chapter and shall identify existing safety hazards that could cause or contribute to a release and, where appropriate, enforce any applicable laws and suggest preventative measures designed to minimize the risk of the release of hazardous material into the workplace or environment.

2. A plan to institute a data management system which will assist in the efficient access to and utilization of information collected under this chapter. This data management system shall be in operation within two years after the business plans are required to be submitted to the administering agency pursuant to Section 25505.

This standard is similar in its requirements to # 1204

The administering agency may, in exceptional circumstances, following notice and public hearing, exempt from the inventory provisions of this chapter any hazardous substance specified in subdivision (k) of Section 25501 if the administering agency finds that the hazardous substance would not pose a present or potential danger to the environment or to human health and safety if the hazardous substance was released into the environment.

The administering agency shall specify in writing the basis for granting any exemption under this paragraph.

The administering agency shall send a notice to the office within five days from the effective date of any exemption granted pursuant to this paragraph.

The administering agency, upon application by a handler, may exempt the handler, under conditions that the administering agency determines to be proper, from any portion of the business plan, upon a written finding that the exemption would not pose a significant present or potential hazard to human health or safety or to the environment or affect the ability of the administering agency and emergency rescue personnel to effectively respond to the release of a hazardous material, and that there are unusual circumstances justifying the exemption.

The administering agency shall specify in writing the basis for any exemption under this paragraph.

The administering agency, upon application by a handler, may exempt a hazardous material from the inventory provisions of this chapter upon proof that the material does not pose a significant present or potential hazard to human health and safety or to the environment if released into the workplace or environment.

The administering agency shall specify in writing the basis for any exemption under this paragraph.

An administering agency shall exempt a business operating a farm for purposes of cultivating the soil or raising or harvesting any agricultural or horticultural commodity from filing the information in the business plan required by subdivisions (b) and (c) of Section 25504 if all of the following requirements are met:

(A) The handler annually provides the inventory of information required by Section 25509 to the county agricultural commissioner before January 1 of each year.

</tbody>
</table>
G) The administering agency may require an unstaffed remote facility to submit a hazardous materials business plan and inventory in accordance with this article if the agency finds that special circumstances exist such that development and maintenance of the business plan and inventory is necessary to protect public health and safety and the environment.

The administering agency shall provide all information obtained from completed inventory forms, upon request, to emergency rescue personnel on a 24-hour basis.

The administering agency shall adopt procedures to provide for public input when approving any applications submitted pursuant to paragraph (3) or (4) of subdivision (c).

If, after review, the administering agency determines that the handler's business plan is deficient in any way, the administrative agency shall notify the handler of those deficiencies. The handler shall submit a corrected business plan within 30 days from the date of the notice.

If a handler fails, after reasonable notice, to submit a business plan in compliance with this article, the administering agency shall immediately take appropriate action to enforce this article, including the imposition of civil and criminal penalties as specified in this article.

The administering agency shall maintain records of all business plans received and shall index them by street address and company name.

The business plan and revisions shall be available for public inspection during the regular working hours of the administering agency, except that those portions of the business plan specifying the precise location where hazardous materials are stored and handled onsite, including any maps of the site, as required by paragraph (5) of subdivision (a) of Section 25509, shall not be available for inspection.

This standard is similar in its requirements to # 1026

The administering agency shall transmit copies of the entire business plan or any information contained in the business plan to any requesting state or local agency.

The administering agency shall, upon request, transmit the information collected pursuant to this chapter to the Chemical Emergency Planning and Response Commission, established by the Governor as the state emergency response commission pursuant to subsection (a) of Section 11001 of Title 42 of the United States Code, and to the local emergency planning committee established pursuant to subsection (c) of Section 11001 of Title 42 of the United States Code.

If a business believes that the inventory required by this chapter involves the release of a trade secret, the business shall nevertheless make the disclosure to the administering agency, and shall notify the administering agency in writing of that belief on the inventory form. As used in this chapter "trade secret" has the meanings given to it by Section 6254.7 of the Government Code and Section 1060 of the Evidence Code.

Subject to this section, the administering agency shall protect from disclosure any trade secret designated as such by the handler.
Upon receipt of a request for the release of information to the public which includes information which the handler has notified the administering agency is a trade secret pursuant to subdivision (a), the administering agency shall notify the handler in writing of the request by certified mail, return receipt requested.

The administering agency shall release the information to the public, but not earlier than 30 days after the date of mailing the notice of the request for information, unless, prior to the expiration of the 30-day period, the handler files an action in an appropriate court for a declaratory judgment that the information is subject to protection under subdivision (b) or for an injunction prohibiting disclosure of the information to the public and promptly notifies the administering agency of that action.

This section does not permit a handler to refuse to disclose the information required pursuant to this chapter to the administering agency.

Any information which is confidential pursuant to this section shall not be disclosed to anyone except the following:

1. An officer or employee of the county or city, the state, or the United States, in connection with the official duties of that officer or employee under any law for the protection of health, or to contractors with the county or city and their employees if, in the opinion of the administering agency, disclosure is necessary and required for the satisfactory performance of a contract, for performance of work, or to protect the health and safety of the employees of the contractor.

2. Any physician where the physician certifies in writing to the administering agency that the information is necessary to the medical treatment of the physician's patient.

For purposes of this section, fire and emergency rescue personnel and county health personnel operating within the jurisdiction of the county or city shall be considered employees of the county or city, as the case may be.

These inspections shall ensure compliance with the Chapter 6.95 of HSC and shall identify existing safety hazards that could cause or contribute to a release and, where appropriate, enforce any applicable laws and suggest preventive measures designed to minimize the risk of the release of hazardous materials in the workplace or environment.

The administering agency shall conduct inspections of every business subject to this article at least once every three years to determine if the business is in compliance with this article. This standard is similar in its requirements to # 1119.

The administering agency may designate the county agricultural commissioner to conduct the inspections of agricultural handlers. The administering agency or its designee for agricultural handlers shall give priority, when conducting these inspections, to inspecting facilities which store an amount of acutely hazardous materials, as defined in Section 25532, equal to, or greater than, the amount specified in subdivision (a) of Section 25536.
Enforcement

2089 OES Comment: Add the following standards (3):
For purposes of this chapter, the UPAs have the responsibility and authority, to the extent provided by this chapter and Sections 25404.1 and 25404.2, to implement and enforce only those requirements of this chapter listed in paragraphs (4) and (5) subdivision (c) of Section 25404.

2090 The UPAs also have the responsibility and authority, to the extent provided by this chapter and Sections 25404.1 and 25404.2, to implement and enforce the regulations adopted to implement the requirements of this chapter listed in paragraphs (4) and (5) of subdivision (c) of Section 25404.

2091 After a CUPA has been certified by the secretary, the unified program agencies shall be the only local agencies authorized to enforce the requirements of this chapter listed in paragraphs (4) and (5) of subdivision (c) of Section 25404 within the jurisdiction of the CUPA.

2092 The administering agency shall collect the penalty imposed by this section pursuant to Section 25514.6.

2093 A penalty shall not be recoverable pursuant to this section and Section 25514 for the same violation.

2094 In assessing the civil penalty, the administering agency shall consider the extent of harm caused by the violation, the nature and persistence of the violation, the length of time over which the violation occurs, the frequency of past violations, any action taken to mitigate the violation, and the financial burden to the violator.

2095 Notwithstanding Section 25516.1, the administering agency may issue a complaint to any person on whom civil liability may be imposed pursuant to Section 13009.6, 25514 or 25514.5. The complaint shall allege the acts or failures to act that constitute a basis for liability and the amount of the proposed civil liability.

2096 The complaint shall be served by personal service or certified mail and shall inform the party so served that a hearing shall be conducted within 60 days after the party has been served, unless the party waives the right to a hearing.

2097 If the party waives the right to a hearing, the administering agency shall issue an order setting liability in the amount proposed in the complaint unless the administering agency and the party have entered into a settlement agreement, in which case the administering agency shall issue an order setting liability in the amount specified in the settlement agreement.

2098 Where the party has waived the right to a hearing or where the administering agency and the party have entered into a settlement agreement, the order shall not be subject to review by any court or agency.

2099 After conducting any hearing required under this section, the administering agency shall, within 30 days after the case is submitted, issue a decision, including an order setting the amount of civil penalty to be imposed.

2100 Orders setting civil liability issued under this section shall become effective and final upon issuance thereof, and payment shall be made within 30 days of issuance. Copies of these orders shall be served by personal service or
by certified mail upon the party served with the complaint and upon other persons who appeared at the hearing and requested a copy.

2101 Within 30 days after service of a copy of a decision issued by the administering agency, any person so served may file with the superior court a petition for writ of mandate for review of the decision. Any person who fails to file the petition within this 30-day period may not challenge the reasonableness or validity of a decision or order of the hearing officer in any judicial proceedings brought to enforce the decision or order or for other remedies.

2102 Except as otherwise provided in this section, Section 1094.5 of the Code of Civil Procedure shall govern any proceedings conducted pursuant to this subdivision.

2103 In all proceedings pursuant to this subdivision, the court shall uphold the decision of the administering agency if the decision is based upon substantial evidence in the whole record.

2104 The filing of a petition for writ of mandate shall not stay any accrual of any penalties assessed pursuant to this chapter. This subdivision does not prohibit the court from granting any appropriate relief within its jurisdiction.

2105 This section [§25514.6] applies only to an administering agency which has adopted a written policy to carry out this section.

2106 All criminal penalties collected pursuant to this chapter shall be apportioned in the following manner: (1) Fifty percent shall be paid to the office of the city attorney, district attorney, or Attorney General, whichever office brought the action. (2) Fifty percent shall be paid to the agency which is responsible for the investigation of the action.

2107 All civil penalties collected pursuant to this chapter shall be apportioned in the following manner: (1) Fifty percent shall be paid to the office of the city attorney, district attorney, or Attorney General, whichever office brought the action. (2) Fifty percent shall be paid to the agency responsible for the investigation of the action.

2108 In all civil and criminal actions in which a penalty is imposed, the amount of two hundred dollars ($200) shall be deducted from the amount of the civil or criminal penalty before the amount is apportioned pursuant to subdivision (a) or (b). This two hundred dollars ($200) shall be deposited in the Hazardous Materials Enforcement and Training Account, which shall be available for expenditure pursuant to Title 13 (commencing with Section 14300) of Part 4 of the Penal Code.

2109 If a reward is paid to a person pursuant to Section 25517, the amount of the reward shall be deducted from the amount of the criminal or civil penalty before the amount is apportioned pursuant to subdivisions (a), (b), and (c).

2110 When the administering agency determines that a business has engaged in, is engaged in, or is about to engage in any acts or practices which constitute or will constitute a violation of this chapter or any regulation or order promulgated thereunder, and when requested by the administering agency, the city attorney of the city or the district attorney of the county in which those acts or practices have occurred, are occurring, or will occur shall make application to the superior court for an order enjoining the acts or practices or for an order directing compliance, and, upon a showing that the person or business has engaged in, is engaged in, or is about to
engage in the acts or practices, a permanent or temporary injunction, restraining order, or other appropriate order may be granted.

2111 Every civil action brought under this chapter shall be brought by the city attorney, district attorney, or Attorney General in the name of the people of the State of California, and any actions relating to the same violation may be joined or consolidated. HSC §25516.1

2112 Enforcement of this chapter and the Uniform Fire Code shall be coordinated. HSC §25509.2(a)(4)

2113 Except for the addendum required by the local fire chief, the administering agency shall be the sole enforcement agency for purposes of determining compliance pursuant to subdivisions (b) and (c). HSC §25509.2(d)

Reporting

2113.1 Any business, except as provided in subdivisions (b) and (c), that handles a hazardous material or a mixture containing a hazardous material that has a quantity at any one time during the reporting year equal to, or greater than, a total weight of 500 pounds, or a total volume of 55 gallons, or 200 cubic feet at standard temperature and pressure for compressed gas, or, if the substance is a radioactive material that is handled in quantities for which an emergency plan is required to be adopted pursuant to Part 30 (commencing with Section 30.1), Part 40 (commencing with Section 40.1), or Part 70 (commencing with Section 70.1), of Chapter 10 of Title 10 of the Code of Federal Regulations (54 Federal Register 14051), or pursuant to any regulations adopted by the state in accordance with those regulations, shall establish and implement a business plan for emergency response to a release or threatened release of a hazardous material in accordance with the standards prescribed in the regulations adopted pursuant to Section 25503. HSC §25503.5a)

2113.2 Business plans shall include all of the following: HSC §25504

2113.3 The inventory of information required by Section 25509 and whatever additional information that the administering agency finds is necessary to protect the health and safety of persons, property, or the environment. Any such information is, however, subject to trade secret protection pursuant to Section 25511. HSC §25504(a)

2113.4 Emergency response plans and procedures in the event of a reportable release or threatened release of a hazardous material, including, but not limited to, all of the following: HSC §25504(b)

   (1) Immediate notification to the administering agency and to the appropriate local emergency rescue personnel.
   (2) Procedures for the mitigation of a release or threatened release to minimize any potential harm or damage to persons, property, or the environment.
   (3) Evacuation plans and procedures, including immediate notice, for the business site.

2113.5 Training for all new employees and annual training, including refresher courses, for all employees in safety procedures in the event of a release or threatened release of a hazardous material, including, but not limited to, familiarity with the plans and procedures specified in subdivision (b). These training programs may take into consideration the position of each employee. HSC §25504(c)

2113.6 Each handler shall, in any case, review the business plan, submitted pursuant to subdivision (a) or (b) at least once every three years thereafter after the initial submission of the business plan, to determine if a revision is needed and shall certify
to the administering agency that the review was made and that any necessary changes were made to the plan. A copy of those changes shall be submitted to the administering agency as a part of that certification.

2113.7 Unless exempted from the business plan requirements under this chapter, each handler shall annually report its hazardous materials inventory on the form required by subdivision (a) of Section 25503.3 or in the alternative form designated by the administering agency pursuant to subdivision (b) of Section 25503.3, or submit a certification statement to the administering agency of the county or city in which the handler is located.

2113.8 If a change in the hazardous materials inventory has occurred, a business subject to the hazardous materials reporting requirements may comply with the annual inventory reporting requirements by submitting the following:
(1) Signed Business Owner/Operator page for the current reporting year.
(2) Updated Chemical Description pages showing additions, deletions, or revisions to previously submitted hazardous materials inventory.

2113.9 If no change in an inventory has occurred, a business subject to the hazardous materials reporting requirements may comply with the annual inventory reporting requirements of Section 2729.4 by submitting a certification statement to the CUPA or AA if all the following apply:
(1) The business has previously filed the hazardous materials inventory pursuant to Section 2729.2 and 2729.3 requirements.
(2) The business owner or officially designated representative signs and attests to these statements:
   (A) The information contained in the hazardous materials inventory most recently submitted to the CUPA or AA is complete, accurate, and up to date.
   (B) There has been no change in the quantity of hazardous materials reported in the most recently submitted inventory.
   (C) No hazardous materials subject to inventory requirements are being handled that are not listed on the most recently submitted inventory.
(3) The business is not utilizing the submission of this certification to meet the annual inventory submission requirements of EPCRA (Section 11022 of Title 42, United States Code).

2113.10 Businesses shall submit an amendment to the inventory within 30 days of the following events:
(1) A 100 percent or more increase in the quantity of a previously disclosed material.
(2) Any handling of a previously undisclosed hazardous material subject to the inventory requirements of this chapter.
(3) Change of business address.
(4) Change of business ownership.
(5) Change of business name.

2114 Except as provided in subdivisions (b) and (c), after January 1, 1997, each administering agency shall require businesses to use this form annually when complying with Section 25509.

2115 Any form designated by an administering agency pursuant to this paragraph shall ensure that all of the information required by Section 25509 is reported.
If a business chooses to submit the single comprehensive hazardous material reporting form adopted pursuant to subdivision (a), the administering agency shall accept that form.

(a) A Certified Unified Program Agency (CUPA) or administering agency may create alternative versions of the hazardous materials inventory forms for local purposes.

(b) Alternative versions shall:
(1) Be developed in consultation with all agencies within the CUPA's or administering agency's jurisdiction that are responsible for fire protection, emergency response and environmental health; and
(2) Meet the requirements of 27 CCR, Section 15400.3(c).

(c) The CUPA or administering agency shall accept the inventory as shown in the appendices from any regulated business that chooses to use it, even if the CUPA or administering agency adopts one or more alternative versions.

An administering agency may use the offices of the county agricultural commissioners to distribute business plan forms to farmers who are subject to Section 25505.

The business plan shall include the following emergency response procedures for a release or threatened release of hazardous materials, scaled appropriately for the size and nature of the business, the nature of the damage potential of the hazardous materials handled, and the proximity of the business to residential areas and other populations:

(a) immediate notification of:
(1) local emergency response personnel;
(2) the administering agency and the State Office of Emergency Services pursuant to article 2 of this subchapter;
(3) persons within the facility who are necessary to respond to an incident;

(b) identification of local emergency medical assistance appropriate for potential accident scenarios;

(c) mitigation, prevention, or abatement of hazards to persons, property, or the environment;

(d) immediate notification and evacuation of the facility; and

(e) identification of areas of the facility and mechanical or other systems that require immediate inspection or isolation because of their vulnerability to earthquake related ground motion.

The business plan shall include a training program, which is reasonable and appropriate for the size of the business and the nature of the hazardous materials handled. The training program shall take into consideration the responsibilities of the employees to be trained. The training program shall, at a minimum, include:

(1) methods for safe handling of hazardous materials;
(2) procedures for coordination with local emergency response organizations;
(3) use of emergency response equipment and supplies under the control of the handler, and
(4) all procedures required by Section 2731 of this Article.

3 CUPA HMMP Performance Standards

Inspection

3000 The CUPA or participating agency shall conduct inspections of every business subject to this article to ensure the business is in compliance with this article. (1) Inspection authority: Right of Entry. If such entry is refused, the chief shall have recourse to every remedy provided by law to secure entry. (2) Failure of regulated business to comply: Orders and notices issued or served as provided by this code shall be complied with by the owner, operator, occupant or other person responsible for the condition or violation to which the order or notice pertains.

CFC §103.2.1.1, CFC §103.3.1.1, CFC §103.3.1.2

Enforcement

Enforcement shall conform to the following requirements.

3002 (1) Informal (Reports, Notices, etc). Service of orders and notices. CFC §103.4.2

3003 (2) Administrative (Enforcement Order, Complaint Order, etc). Enforcement agency, fines. Authority to issue corrective orders & notices. Authority to stop uses, order evacuation. Service of orders and notices. Compliance with orders and notices. Unsafe Buildings.

CFC §101.2.2.2, CFC §103.4.1, CFC §103.4.1.1, CFC §103.4.1.3, CFC §103.4.2, CFC §103.4.3.1, CFC §103.4.5

3004 (3) Civil (Actions by city attorney, district attorney, or Attorney General). Not Available

3005 (4) Criminal (Actions by the city attorney, district attorney, or Attorney General); Misdemeanor for failure to comply

CFC §103.4.4

Reporting

3006 If the CUPA is not the local fire authority, the CUPA must transmit business plan information to the local fire authority within 15 days of receipt and confirmation. This standard is similar in its requirements to #1030, 1207 & 2124

CCR T27 §15100(g)(3), HSC §25509.2(a)(3), CFC §8001.2.2a

3007 The CUPA should be aware of the fire service authority to require an HMMP/HMIS for quantities under the threshold amounts specified in HSC Chapter 6.95.

HSC §13143.9, CFC §105.1-105.8.1

3008 At a minimum, The HMMP/HMIS should contain all elements listed in Article 80, of the 1998 California Fire Code or subsequent edition adopted by the State Fire Marshal, and the elements required in HSC Chapter 6.95. (Appendix IIE of the CFC provides a sample HMMP format).

CFC §8001.3.2a, CFC §8001.3.3a

3009 The CUPA should be aware of the fire services need for additional information in the Business Plan/Hazardous Materials Management Plan.

HSC §13143.9, HSC §25503.3, HSC §25503.9
## Self-Audit

**4000** Beginning in fiscal year 1998 (July 1, 1998 – June 30, 1999), the administering agency shall annually conduct an audit of its activities to implement the CalARP program.

**4001** An audit report shall be compiled annually based upon the previous fiscal year’s activities and shall contain an executive summary and a brief description of how the administering agency is meeting the requirements of the program as listed in Title 19, Section 2780.3.

In addition to the executive summary for each stationary source, pursuant to Title 19, Section 2745.3, the audit shall contain:

**4003** (1) A listing of all stationary sources covered by the program and which facilities:
   (A) have been audited,
   (B) have been requested to develop RMPs and the status,
   (C) have been inspected, or
   (D) have received public comments.

**4008** (2) A list of new or modified stationary sources since the last program audit. The registration information in Section 2740.1 shall also be submitted for each of these facilities.

**4009** (3) Updated registration information pursuant to Section 2740.1(c).

**4010** (4) Legal enforcement actions initiated by the administering agency identifying each stationary source and California Code section alleged to have been violated. This shall include administrative, civil, and criminal actions.

**4011** (5) Total penalties assessed as a result of enforcement.

**4012** (6) Total fees, service charges, and other assessments collected specifically for the support of this program.

**4013** (7) Total personnel years utilized by the jurisdiction to directly implement, administer or operate this program.

**4024** The office and the administering agency shall, to the maximum extent feasible, coordinate implementation of the accidental release prevention program with the federal Chemical Safety and Hazard Investigation Board, the Emergency Response Commission and local emergency planning committees, the unified program elements specified in subdivision (c) of Section 25404, the permitting programs implemented by the air quality management districts and air pollution control districts pursuant to Title V of the Clean Air Act (42 U.S.C. Section 7661 et seq.), and with other agencies, as specified in Section 25404.2.

**4025** The administering agency in each jurisdiction is the agency designated to implement and enforce any requirements specified by the Environmental Protection Agency and pertaining to any of the...

</tbody>
</table>

4026 For any stationary source with one or more covered processes, the administering agency shall make a preliminary determination as to whether there is a significant likelihood that the use of regulated substances by a stationary source may pose a regulated substances accident risk.

4027 If the administering agency determines that there is a significant likelihood of a regulated substances accident risk pursuant to this subdivision, it shall require the stationary source to prepare and submit an RMP, or may reclassify the covered process from program 2 to program 3, as specified in Part 68 (commencing with Section 68.1) of Subchapter C of Chapter I of Title 40 of the Code of Federal Regulations.

4028 If the administering agency determines that there is not a significant likelihood of a regulated substances accident risk pursuant to this subdivision, it may do either of the following:

(A) Require the preparation and submission of an RMP, but need not do so if it determines that the likelihood of a regulated substances accident risk is remote, unless otherwise required by federal law.

(B) Reclassify a covered process from program 3 to program 2 or from program 2 to program 1, as specified in Part 68 (commencing with Section 68.1) of Subchapter C of Chapter I of Title 40 of the Code of Federal Regulations, unless the classification of the covered process is specified in those regulations.

4029 If the administering agency determines that an economic poison, as defined in Section 12753 of the Food and Agricultural Code, used on a farm or nursery may pose a regulated substances accident risk pursuant to this article, the administering agency shall first consult with the Department of Food and Agriculture or the county agricultural commissioner to evaluate whether the current RMP is adequate in relation to the regulated substances accident risk.

4030 The requirements of this section apply to a stationary source that is not otherwise required to submit an RMP pursuant to Part 68 (commencing with Section 68.1) of Subchapter C of Chapter I of Title 40 of the Code of Federal Regulations.

4031 Administering agencies shall implement the regulations adopted pursuant to this section.

4032 The administering agency shall review the RMP and may authorize the air pollution control district or air quality management district in which the stationary source is located to conduct a technical review of the RMP.

Administrative

4033 If, after review by the administering agency and technical review, if any, by the air pollution control district or air quality management district, the administering agency determines that the current RMP is inadequate in relation to the regulated substances accident risk, the administering agency shall require the preparation and submission of a revised RMP.

HSC §25535(a)
quality management district, the administering agency determines that the stationary source's RMP is deficient in any way, the administering agency shall notify the stationary source of these defects. The stationary source shall submit a corrected RMP within 60 days of the notification of defects, unless granted a one-time extension of no more than 30 days, of the notice to correct the RMP by the administering agency. Failure to fully comply with this notice or the unified program of this section shall be deemed a violation of this article for purposes of Section 25540.

4034 Within 15 days after the administering agency determines that an RMP is complete, the administering agency shall make the RMP available to the public for review and comment for a period of at least 45 days.  

4035 A notice briefly describing and stating that the RMP is available for public review at a certain location shall be placed in a daily local newspaper and mailed to interested persons and organizations. 

4036 The administering agency shall review the RMP, and any comments received, following the regulations adopted pursuant to subdivision (a) of Section 25534.05.  

4037 If the administering agency makes a determination pursuant to Section 25534 that a stationary source is required to prepare and submit an RMP, the stationary source shall submit the RMP in accordance with a schedule established by the administering agency after consultation with the stationary source. The administering agency shall not require an RMP to be submitted earlier than 12 months or later than three years after the owner or operator has received a notice of that determination from the administering agency.  

4038 Upon receipt of a claim of trade secret related to an RMP, the administering agency shall review the claim and shall segregate properly substantiated trade secret information from information that shall be made available to the public upon request in accordance with the California Public Records Act (Chapter 3.5 (commencing with Section 6250), Division 7, Title 1, Government Code).  

4039 Except as otherwise specified in this section, the administering agency may not disclose any properly substantiated trade secret that is so designated by the owner or operator of a stationary source.  

4040 The administering agency may disclose trade secrets received by the administering agency pursuant to this article to authorized officers or employees of other governmental agencies only in connection with the official duties of that officer or employee pursuant to any law for the protection of health and safety.  

4041 Upon receipt of a request for the release of information to the public that includes information that the stationary source has notified the administering agency is a trade secret pursuant to subdivision (a), the administering agency shall notify the stationary source in writing of the request by certified mail, return receipt requested. The owner or operator of the stationary source shall have 30 days from receipt of the notification to provide the administering agency with any materials or information intended to supplement the information submitted pursuant to subdivision (a) and needed to substantiate the claim of trade secret.  

4042 The administering agency shall review the claim of trade secret and shall determine whether the claim is properly substantiated.  

HSC §25535.2  
HSC §25535.2  
HSC §25535.2  
HSC §25536(b)  
HSC §25538(a)  
HSC §25538(b)  
HSC §25538(c)  
HSC §25538(g)(1)  
HSC §25538(g)(1)
4043 The administering agency shall inform the stationary source in writing, by certified mail, return receipt requested, of any determination by the administering agency that some, or all, of a claim of trade secret has not been substantiated. Not earlier than 30 days after the receipt by a stationary source of notice of the determination, the administering agency shall release the information to the public, unless, prior to the expiration of the 30-day period, the stationary source files an action in an appropriate court for a declaratory judgment that the information is subject to protection under subdivision (b) or for an injunction prohibiting disclosure of the information to the public, and promptly notifies the administering agency of that action.

4044 The office and each administering agency, in implementing this article, shall, upon request, involve and cooperate with local and state government officials, emergency planning committees, and professional associations.

4045 If a stationary source has a process with more than a threshold quantity of a regulated substance as listed in Table 3 of Section 2770.5, and the AA makes a determination pursuant to Section 25534 of HSC that an RMP is required, the owner or operator shall comply with the appropriate provisions of this chapter pursuant to the time frame identified in Section 2745.1(d) or (e).

4046 Coordination. The owner or operator of a stationary source shall closely coordinate with the administering agency to implement the requirements of this chapter and to determine the appropriate level of documentation required for an RMP to comply with Sections 2745.3 through 2745.9 of this chapter.

4046.1 The owner or operator of a stationary source shall consult with the AA to decide which hazard review methodology is best suited to determine and evaluate the hazards of the process being analyzed.

4046.2 Model RMPs may be used by stationary sources if accepted for use by AAs, in consultation with OES. Model RMPs for a process that has in excess of a threshold quantity of a regulated substance listed in Table 1 or 2 of Section 2770.5 must also be recognized by USEPA. OES may limit the use, application, or scope of these models.

4047 Upon request of a state or local emergency response agency the administering agency shall provide immediate access to all components of the CalARP program. If any of the components of the CalARP Program are designated as “trade secret” as defined in Section 6254.7(d) of the Government Code and Section 1060 of the Evidence Code, the emergency response agency or agencies shall be given notice that the information released shall be used only in connection with the official duties of the agency or agencies and shall not otherwise be released.

4048 The administering agency may request a registration from a stationary source covered by this chapter prior to submittal of the RMP. Registration submitted prior to an RMP submittal shall include a certification of accuracy.

4049 Disputes arising between the owner or operator of a stationary source and an administering agency under this chapter shall first be decided by the administering agency pursuant to a dispute resolution process.

4050 Each administering agency shall establish procedures necessary to implement this dispute resolution process. These procedures shall:
1. Provide that the owner or operator of a stationary source may initiate the dispute resolution process by serving
the administering agency with prompt, written notice of a dispute; (2) Identify the official(s) or other employee(s) of the administering agency who will resolve disputes arising under this Section; (3) Set procedures and timetables for providing argument and supporting materials to the administering agency; (4) Require that the administering agency render a written decision within 120 days after the owner or operator of a stationary source initiates the dispute resolution process; and, (5) Use the CUPA dispute resolution process, if the administering agency is also a CUPA, providing that such process is consistent with the criteria in (a)(1) through (4) above.

Inspection

4051 The administering agency shall conduct inspections of every business subject to this article at least once every three years to determine if the business is in compliance with this article.  This standard is similar in its requirements to # 1120

HSC §25537(a)

4052 In addition to inspections for the purpose of regulatory development and enforcement of the federal CAA, the administering agency shall periodically audit RMPs submitted under Article 3 of this chapter to review the adequacy of such RMPs and require revisions of RMPs when necessary to ensure compliance with Article 3 of this chapter.

CCR T19 §2775.2(a)

4053 To the extent possible, any audit shall be fully coordinated with the Unified Program elements at a stationary source.

CCR T19 §2775.2(a)

4054 The administering agency shall select stationary sources for audits based on any of the following criteria:

CCR T19 §2775.2(b)

1. Accident history of the stationary source;
2. Accident history of other stationary sources in the same industry;
3. Quantity of regulated substances present at the stationary source;
4. Location of the stationary source and its proximity to the public and environmental receptors;
5. The presence of specific regulated substances;
6. The hazards identified in the RMP; and,
7. A plan providing for neutral, random oversight.

4055 In accordance with Section 25534.5 of HSC, the administering agency shall have access to the stationary source, supporting documentation, and any area where an accidental release could occur.

CCR T19 §2775.2(d)

4056 Based on the audit, the administering agency may issue the owner or operator of a stationary source a written preliminary determination of necessary revisions to the stationary source's RMP to ensure that the RMP meets the criteria of Article 3 of this chapter. The preliminary determination shall include an explanation for the basis for the revisions, reflecting industry standards and guidelines (such as AIChE/CCPS guidelines and ASME and API standards) to the extent that such standards and guidelines are applicable, and shall include a timetable for their implementation.

CCR T19 §2775.2(e)

4057 After providing the owner or operator an opportunity to respond under section (f), the administering agency may issue the owner or operator a written final determination of necessary revisions to the stationary source's RMP. The administering agency shall develop a time table for implementing these revisions in consultation with the stationary source. The final determination may adopt or modify the revisions contained in the preliminary
determination under section (e) or may adopt or modify the substitute revisions provided in the response under section (f). A final determination that adopts a revision rejected by the owner or operator shall include an explanation of the basis for the revision. A final determination that does not adopt a substitute revision provided under section (f) shall include an explanation of the basis for finding such substitute revision unreasonable.

**Enforcement**

4058 If civil penalties are recovered pursuant to Section 25540 or 25540.5, the same offense shall not be the subject of a criminal prosecution pursuant to Section 25541 or 25541.3. When an administering agency refers a violation to a prosecuting agency and a criminal complaint is filed, any civil action brought pursuant to this article for that offense shall be dismissed.

**Reporting**

4059 The CUPA will establish procedures for acceptance, tracking and maintenance of Business Plans, RMPP, and acutely hazardous materials registration forms from regulated businesses.
Permitting

5000 An application for a permit to operate an underground storage tank, or for renewal of the permit, shall be made, by
the owner or operator of the tank, or, if there is a CUPA, by the owner or operator of the unified program facility
on which the tank is located, on a standardized form and provided by the local agency.

*This standard is similar in its requirements to # 1067*

5001 Each CUPA shall prepare a form which provides for the acceptance of the obligations of a transferred permit by
any person who is to assume the ownership of an underground storage tank from the previous owner and is to be
transferred the permit to operate the tank.

5002 A unified program facility permit shall be issued by the CUPA to the owner or operator of the unified program
facility on which the tank(s) is located.

The operating permit shall have the following information included or attached to it:

5004 (1) Monitoring program which includes a monitoring, plot and response plan;

5005 (2) Permit expiration date;

5006 (3) State underground storage tank identification number(s); and

5007 (4) A written list of all permit conditions, including a condition that the owner and operator are subject to all
applicable requirements of Chapter 6.7 and 6.75 of the Health and Safety Code and these regulations.

5008 (5) It is also required to be maintained on site.

5009 The monitoring program shall be approved by the CUPA and shall be in compliance with the requirements of this
article and with the underground storage tank operating permit.

5010 The CUPA shall not approve a repair or upgrade unless it can be demonstrated that the underground storage tank
system is structurally sound and the method of repair or upgrade will prevent unauthorized releases due to
structural failure or corrosion during the operating life of the underground storage tank system.

5011 The CUPA shall not renew an underground storage tank permit unless the underground storage tank has been
inspected by the CUPA or a special inspector within the previous three years and the inspection verified that the
underground storage tank complied with the provisions of Article 3 or 4, as applicable, and with all existing permit
conditions.

5012 The CUPA shall revoke the permit of an underground storage tank issued pursuant to Section 25284 if the owner
or operator is not in compliance with Article 3 (commencing with Section 25299.30) of Chapter 6.75 on the date
three months after the date on which the owner or operator of the tank first becomes subject to Article 3
Standard Description

(commencing with Section 25299.30) of Chapter 6.75.

5028 If the operator is not the owner of the tank, or if the permit is issued to a person other than the owner or operator of the tank, the permittee [local agency] shall ensure that both the owner and the operator of the tank are provided with a copy of the permit.

Inspection

5017 The local agency shall inspect every underground tank system within its jurisdiction at least once every year. The purpose of the inspection is to determine whether the tank system complies with the applicable requirements of this chapter and the regulations adopted by the board pursuant to Section 25299.3, including the design and construction standards of Section 25291 or 25292, whichever is applicable, whether the operator has monitored and tested the tank system as required by the permit, and whether the tank system is in a safe operating condition. This standard is similar in its requirements to # 1118

5018 After an inspection conducted pursuant to subdivision (a), the local agency shall prepare a compliance report detailing the inspection and shall send a copy of this report to the permit holder and the owner or operator, if the owner or operator is not the permit holder.

5019 In lieu of the annual local agency inspections, the local agency may require the permit holder to employ a special inspector to conduct the annual inspection. The local agency shall supply the permit holder with a list of at least three special inspectors that are qualified to conduct the inspection.

5020 Within 60 days after receiving a compliance report or special inspection report prepared in accordance with subdivision (b) or (c), respectively, the permit holder shall file with the local agency a plan to implement all recommendations contained in the compliance report or shall demonstrate, to the satisfaction of the local agency, why these recommendations should not be implemented.

5021 If the inspection indicates noncompliance, the CUPA shall verify by a follow-up inspection that all required corrections have been implemented before renewing the permit.

5022 The installation shall be inspected and approved by the CUPA, or, if required by the CUPA, inspected and certified by a registered professional engineer who has education in and experience with underground storage tank system installation.

Enforcement

5023 The CUPA shall take appropriate enforcement action pursuant to section 25299 of the Health and Safety Code or prohibit the operation of the tank systems if the owner or operator fails to comply with the monitoring requirements in Article 3 or 4 or the reporting requirements of Article 5.

Reporting

5025 The CUPA shall transmit unauthorized release information submitted by the owner or operator, to the appropriate Regional Water Quality Board.

5026 The CUPA shall transmit unauthorized release update report information, submitted by the owner or operator pursuant to section 2712, to the appropriate Regional Water Quality Board for sites where they are overseeing...
cleanup. The CUPA shall transmit this unauthorized release update information on a quarterly schedule established by the State Water Board.

Local agencies shall maintain a list of underground storage tank facilities that have been issued an upgrade compliance certificate and shall provide this information to anyone requesting it.

6 Aboveground Storage Tank Performance Standards

Inspection

CUPAs will conduct inspections to determine if an SPCC Plan is required, verify that a plan is in place when required, and provide owners of facilities lacking required plans with program information.

| 7000     | The CUPA, shall implement procedures for the processing of notifications submitted for Permit by Rule Fixed Treatment Units that, within forty-five (45) calendar days of receipt, shall include:  
(1) acknowledgement, in writing, receipt of the notification for Permit by Rule for Fixed Treatment Units.  
(2) Authorization of operation of the FTU subject to the requirements and conditions specified in sections 67450.3, 67450.7 and 67450.9(b) and 67450.9(c), or  
(3) Denial of authorization to operate under a permit by rule pursuant to section 67450.9(a), or  
(4) Notification the regulated business that the notification is incomplete or inaccurate.  
(5) Specification of what additional information or correction is needed, if incomplete  
(6) authorize or deny authorization based on submitted or corrected information  
(7) rejection of authorization if information is not submitted within 10 days of receipt of acknowledgement  
(8) granting of additional time to provide information or correction, upon good cause shown by the business | CCR T22  
§67450.2(b)(4) |
| 7006     | The CUPA shall ensure that a notification submitted for treatment of hazardous waste under Conditional Authorization shall be on the UPCF, and shall be completed, dated, and signed according to the requirements of CCR Title 22, section 66270.11.  
This standard is similar in its requirements to # 1067 | HSC §25200.3(e)(3) |
| 7015     | The CUPA shall ensure that a notification submitted for treatment of hazardous waste under Conditional Exemption shall be on the UPCF, and shall be completed, dated, and signed according to the requirements of CCR Title 22, section 66270.11.  
This standard is similar in its requirements to # 1067 | HSC §252 |

#### Inspection

| 7020     | Hazardous waste generator inspections shall be conducted to ensure compliance of regulated businesses with all applicable statutes and regulations.  
This standard is similar in its requirements to # 1116 & 1117 | HSC §25150,  
HSC §25159,  
HSC §25180(a)(2)(B)  
HSC §25185(a) |
| 7021     | The CUPA shall, at a minimum, ensure that within two years of the date that a person submits a notification that it is operating pursuant to a permit-by-rule, conditional authorization, or conditional exemption, a site inspection shall be conducted at the facility, including verification of compliance with applicable generator requirements, container standards, and administrative and record keeping requirements. | HSC §25201.4(b)(2) |
| 7022     | The CUPA shall incorporate the regulation of materials that require special handling that, when removed from major appliances are hazardous wastes, into existing inspection and enforcement activities. | HSC §25212(c)(1) |
| 7023     | At the conclusion of the inspection, the inspector shall deliver to the operator of the regulated business a written summary of all violations alleged by the inspector.  
The inspector shall, prior to leaving the site, deliver the written summary to the operator and shall discuss any questions or observations that the operator might have concerning the inspection. | HSC §25185(c)(1) |
A single Notice to Comply shall be issued for all minor violations cited during the same inspection and the notice to comply shall separately list each of the cited minor violations and the manner in which each of the minor violations may be brought into compliance.

The CUPA shall prepare an inspection report which shall fully detail all observations made at the site which will include the following information:
1. all alleged violations,
2. the factual basis for alleging those violations, and
3. any corrective actions that should be taken by the operator of the regulated business.

Inspection reports will be completed within 40 days after the inspection.

The CUPA shall provide a copy of the inspection report to the regulated business within 5 days from the date of the preparation of the inspection report.

The CUPA shall provide the inspection report not later than 65 days from the date of the inspection.

The inspection report shall include all pertinent information, including, but not limited to:
1. documents,
9. photographs,
10. sampling results concerning the alleged violations.

The CUPA shall, at the regulated business operator's request, discuss the inspection report with the operator and shall, upon request of the operator, review the inspection report and determine whether the operator's responses and documented or proposed corrective actions would be sufficient to comply with Hazardous Waste Control Law, or if any allegation of a violation is unwarranted.

Upon receipt of a written response to the inspection report, the CUPA, upon request of the operator, shall meet and confer with the operator regarding any questions, concerns, or comments that the operator may have concerning the inspection report. The CUPA shall respond within 30 working days from the date of receipt of a response from the operator to determine if the operator's response will achieve compliance with Hazardous Waste Control Law.

CUPAs will review source reduction documents required of businesses pursuant to Health and Safety Code §25244.19, §25244.20, & §25244.21.

The CUPA shall assess penalties for violations of Hazardous Waste Control Law consistent with statutes and regulations for enforcement actions.
7040 Enforcement shall define and correctly classify violations for management of hazardous waste that meet, at a minimum, standards used by DTSC for Class 1 violation, Class 2 violation, and Minor violation.

The CUPA shall have a process for the issuance of Administrative Enforcement Orders (AEO) which includes the following:

7040.1 (1) A penalty matrix which allows for the assessment of consistent penalties for similar violations,

7040.2 (2) Means of notification of corrective actions, including letters, orders, and other related forms,

7040.3 (3) Receipt, tracking and confirmation of notices of defense,

7040.4 (4) Hearings regarding the order,

7040.5 (5) Resolution of the order prior to the case being heard in front of an Administrative Law Judge.

7040.6 The CUPA shall document that a contract or agreement is in place that allows the CUPA access to an Administrative Law Judge.

7041 Class I violations will be addressed through a formal enforcement action.

7042 Minor violations will be addressed through a Notice to Comply for violations that have not been corrected in the presence of an inspector at the time of the inspection.

7043 A CUPA shall classify a hazardous waste handler as a Significant Non-Complier (SNC) based on the nature of the violations if:

1) The handler has caused actual exposure or substantial likelihood of exposure to hazardous waste or hazardous constituents; or
2) The handler is a chronic violator (a handler who is regularly found to have many Class I or Class II violations) or recalcitrant violator (a handler who actively refuses to comply with the regulatory requirements); or
3) The handler substantially deviates from the terms of a permit, order, settlement document, or decree by not meeting the requirements in a timely manner and/or by failing to perform work as required by terms of permits, orders, settlement agreements, or decrees; or
4) The handler deviates from statutory or regulatory requirements.

7049 The CUPA shall refer potential criminal cases to the District Attorney, City Attorney, Attorney General, or U.S. Attorney.

7050 The CUPA shall conduct follow-up inspections to confirm compliance on a selection of cases where only informal action
The CUPA shall initiate formal enforcement actions within 135 days of completion of the inspection.

The CUPA shall file civil actions within 90 days of referral to the District Attorney, City Attorney, Attorney General, or U.S. Attorney.

The CUPA shall ensure that formal enforcement actions taking longer than 90 days will be scheduled for a hearing or have appropriate approval for extension.

The CUPA shall file civil complaints after 90 days of initiating settlement negotiations, unless appropriate approval is granted for an extension.

The CUPA will maintain procedures to accept from businesses release reports for tank systems or secondary containment systems reporting the release of a reportable quantity.

The CUPA will maintain procedures to accept from businesses Tiered Permitting Closure Reports.

The CUPA will maintain procedures to accept Contingency Plan activation reports for permitted facilities.
